SPECIAL AGENT STARTS FOR HAWAII

33 1-3 CUT BOURBON PLAN

Democratic Senators Approve
Substitute for House Free
Sugar Bill

[Special Star-Bulletin Cable]
WASHINGTON, D. C., July 26.—In a largely-attended caucus, the Democratic members of the Senate decided to support the bill proposed by Senator John Sharp Williams of Mississippi as a substitute for the House free sugar bill. The Williams bill calls for a reduction in the present tariff on refined of 33 1-3 per cent, and for the abolition of the differential and the Dutch standard.

C. S. ALBERT.

[Associated Press Cable]
WASHINGTON, D. C., July 26.—The Democratic senators have determined in caucus to support the House excise tax bill. Incomes of \$5,000 and over yearly are taxed. The Democrats have also endorsed in general terms Senator Williams' sugar bill, which calls for a reduction of one-third on the tariff on refined and unrefined, forty per cent on molasses, and the elimination of the Dutch standard and present differentials in duty.

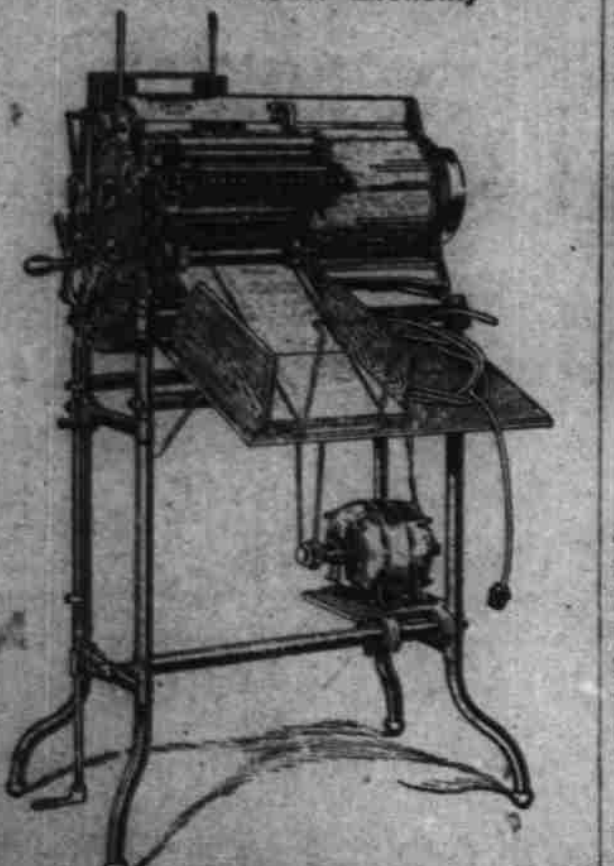

SENATE DOESN'T EXPECT TO SEE TARIFF REVISED

[Special Star-Bulletin Correspondence]
WASHINGTON, D. C., July 15.—Any thought of perfecting sugar legislation at this session of Congress has been virtually abandoned. It is not even intended that President Taft shall be given an opportunity to veto a bill. All parties and factions in the Senate concur in the proposition to drop all attempts to revise the sugar schedule of the Payne-Aldrich act.

The situation regarding sugar was peculiarly complex and it was the first of the remaining tariff measures shunted aside. The Regular Republicans proposed to eliminate the Dutch color standard and remove the differential from refined sugars. They would not go beyond that modification. The House Democrats passed a free sugar bill. The Senate Democrats tried hard to swallow but could not do so. They figured on a compromise by which a reduction of 25 or 33 1-3 per cent from present rates might be made. The Progressive Republican Senators thought they could stand a moderate lowering of duties, as provided in the Eristov bill, but all were not agreed on that question. A final blow to free sugar was given during and after the Democratic convention at Baltimore. William J. Bryan and some of his associates were anxious to have a plank inserted in the platform declaring for free sugar. They fancied this would prove a winner during the campaign. At that critical period Senator-elect Broussard, of Louisiana, and National Committeeman Ewing, of that State, dampened the ardor of Mr. Bryan by flatly informing him that such a plank would place Louisiana in the Republican column. They also argued that possibly it might influence the result in some other Southern States. The warning was heeded and the plank omitted.

EMPEROR AT DEATH'S DOOR; MUCH WEAKER

Mikado Passed Sleepless Night
with Pulse Irregular and
Temperature High

PHYSICIANS CALLED IN
HURRIED CONSULTATION

Local Consulate Receives Bul-
letins Hourly as to Rul-
er's Condition

[Special Star-Bulletin Cable]
TOKIO, Japan, July 26.—The Mikado's condition now is very serious. TOKIO, Japan, July 26.—The Emperor passed an exceedingly restless night. He was unable to sleep and is growing weaker. At 3 o'clock this morning his condition was so alarming that the attending physicians were called together in consultation. At this hour the temperature of the patient was exceeding high, his pulse 110 and respiration 32.

The above cablegram was received at the Japanese consulate this morning, followed by another which showed the condition of the Emperor at various hours during the night and this morning. At 9 o'clock this morning it stated that his pulse was very irregular and his temperature high. He had been able to take some liquid nourishment such as soup and milk.

Although the Emperor has always led a temperate life, it is stated that his age weighs heavily in the fight for his life. He will be 60 years old November 3.

OAHU LEAGUE HELPS DUKE AND ALL CLEAN SPORT

The
OAHU BASEBALL LEAGUE.
C. F. Chillingworth, President.
A. Q. Marcellino, Manager.
Wm. T. Raposo, Secretary.

Honolulu, T. H., July 26, 1912.
To the Honolulu Star-Bulletin,
City.

Gentlemen: In behalf of the Oahu Baseball League, and as a subscription to the Duke Kahanamoku Fund, you will find enclosed our check No. 9 for Fifty Dollars.

The Oahu Baseball League is, and has always been, of the opinion that in Duke Kahanamoku Hawaii has a young Hawaiian to be proud of, and, as lovers of good sport, the local ball players have done everything in their power to make Duke's successes of today possible, having already, as the result of two baseball benefits, subscribed about \$500 to help take Duke to the mainland.

The Oahu League also believes that what will be good for Duke Kahanamoku will be good promotion work for Hawaii, and we therefore wish you every success possible in your endeavors in behalf of Hawaii's world-champion. Very respectfully yours,

W. T. RAPOSO,
Secretary, Oahu B. B. League.

FRUIT FLY BILL MAKES PROGRESS

WASHINGTON, July 16.—The Senate Agricultural Committee today favorably reported Representative Raker's bill providing an appropriation of \$40,000 for extermination of the Mediterranean fly. The bill had previously been reported favorably by the House Agricultural Committee.

Probably the expert from the Department of Agriculture coming here to aid in the fruit fly campaign is awaiting the passage of the bill before starting on his journey.

GRAND JURY IN AUGUST INQUIRY

Peyton Gordon, Trusted Emissary of
Wickersham, On Way; Deep Secrecy

[Special Star-Bulletin Cable]
WASHINGTON, D. C., July 26.—Peyton Gordon, special attorney for the department of justice, has started for Japan. He will be in Honolulu in August and will conduct a special investigation before the federal grand jury. Attorney General Wickersham refuses to indicate the line the investigation will take. Absolute secrecy is being observed, and attempts to get information are met with determination on the part of the department that nothing shall be given out.

C. S. ALBERT.

Governor Frear, asked for confirmation of the cable message today, said that he had received no information as to who would be sent to Honolulu by Attorney General Wickersham, although he had known, ever since his return from the mainland, that a special agent from the Attorney General's office might come here.

LOW'S HAT IN RING; ANSWER TO CASTLE

"My hat's in the ring on this paving proposition," said Supervisor Low this morning. "I'm in the fight for the city's interest to stay."

"I have just started on the fight, I am going to continue it." Supervisor Low made good his threat by giving to the Star-Bulletin the letter published herewith. He added that he will make a more detailed statement in the near future, and he declared, "It's going to be hotter than this."

His letter follows:
Honolulu, T. H., July 26, 1912.
Editor Honolulu Star-Bulletin, Sir:
The subject of the paving of the streets of Honolulu is so important to the City's prosperity that I appeal to every citizen who has the good of the city at heart to rally to the support of the Supervisor who is striving to get good and lasting pavement. I have been accused by Mr. J. B. Castle of falsehood in your issue of yesterday, and Mr. Alfred L. Castle in the same issue on behalf of the Rapid Transit & Land Co. says that my statements are obviously false.

PUTS IT UP TO SUPERVISORS

At a special meeting of the board of directors of the Rapid Transit company, held this morning, the following letter was ordered sent to the Board of Supervisors, thus putting it up to the board to settle by speedy action or postpone it:

"To the Honorable Board of Supervisors of the City and County of Honolulu.
Gentlemen: At a meeting of the board of directors of the Honolulu Rapid Transit and Land Company held this morning, the board instructed me

to notify you that the company is ready to proceed to lay lava-block pavement on King street, between Nuuanu street and the Nuuanu stream, on the entire portion the company is required by law to keep in repair; although the board is still willing to lay ohia blocks, even if more expensive, because best suited to the traffic in that place.

"We hope that you can give an early consideration to this matter. Respectfully yours,

"ALFRED L. CASTLE,
Secretary, Honolulu Rapid Transit and Land Company."

With Escort of Admirals, Dr. Eliot to See Pearl Harbor

Envoy of World Peace Will Be
Posted as to the Facile
Arts of War

Going on the principle that an envoy of world peace should be well posted on the arts of war, President Eliot will be shown over the naval works at Pearl Harbor tomorrow, and will have an opportunity to study Uncle Sam's plans for keeping the peace in the mid-Pacific.

The navy tug Navajo has been offered by Admiral Cowles, who will himself do the honors of the new naval station. This will give President Eliot a chance to enter the harbor from the sea side, and get a better idea of its extent than if he made the trip by train or motor.

Walter F. Dillingham has been instrumental in organizing the party, which will include a number of ladies. Admiral Stanford, chief of the Bureau

KUHIO BUSY ALREADY ON HAWAII VOTE

Delegate to Speak at Kailua
Tomorrow Night is the
Report Today

FERN'S DEMOCRATIC
MEETING IS OCCASION

Plans for Independent Cam-
paign Will Keep Him Away
Some Weeks

Delegate Kuhio is not waiting for local businessmen to decide upon their political attitude toward him.

He is campaigning already, and his repeated statements that he will run, either as a Republican or an independent, are borne out by stories of his plans for active work on Hawaii and Maui during the next four weeks.

Tomorrow night, according to reports, the delegate will address a mass meeting at Kailua, Hawaii. Last night he was at the Parker-Smart wedding, so he will have to do some fast auto riding to get to Kailua.

Mayor Joseph J. Fern has been on Hawaii and although he is not a candidate for delegate, he spoke at several mass meetings of Democrats and Home Rulers. The two parties on Hawaii have fused, and the result is a very active bunch of voters.

Mayor Fern was scheduled to speak tomorrow night at a Democratic mass meeting at Kailua. The mayor found that he was able to conclude his business on Hawaii earlier than he expected, and he decided to come back to Honolulu.

He arrived this morning and according to the story that came back by the same boat, the delegate will be at Kailua tomorrow night and will make a political address there.

Kuhio's original plan, say his close friends here, was to go to Hawaii for only about a week. Now he is expected to stay away from Honolulu four weeks and he will be busy on Hawaii and Maui during that time.

That he is making preparation for the contingency of running as an independent is evident by the fact of his address tomorrow night. What he plans to do is doubtless to gather in all the Republican, Democratic and Home Rule support he can get on Hawaii and make his plea to the voters to endorse his personal anti-Frear platform.

Mayor Fern says that the new fusion party on Hawaii is very active, and that he attended three or four meetings during his short absence.

NO DOUBT PEARL HARBOR GETS \$345,000

[Special Star-Bulletin Cable].
WASHINGTON, D. C., July 26.—In conference over the naval appropriation bill, the sum of \$345,000 has been fixed for the coaling station at Pearl Harbor.

C. S. ALBERT.

Naval authorities here are puzzled over the meaning of this dispatch, as the sum mentioned has been available for some months, actually appropriated out of standing funds already allotted.

Rear Admiral Homer Stanford, chief of the Bureau of Yards and Docks, who is now in Honolulu, said that this appropriation had gone far beyond the congressional stage, and that he did not know how the matter could have been included in any debate.

"The figures agree exactly with those which were actually fixed long before I left Washington," said the bureau chief. "The \$300,000 is for the coaling plant, and the \$45,000 for the fuel oil plant. These sums were not dependent on this year's appropriation bill, having been definitely allotted for some time past, and are matters of record."

ASKED TO SEND DELEGATE TO COMMERCE CONGRESS

Governor Frear this morning received a special invitation from the Governor of Utah to attend the trans-Mississippi Commercial Congress, to be held next month at Salt Lake City. Whether the invitation will be accepted and used the Governor has not determined.

It is reported that J. Walter Doyle is to be secretary of the 1913 Floral Parade.

DETROIT SHOCKED BY BRIBE STORY

Eleven Councilmen Charged with Railroad Corruption—President and Secretary Arrested — Alleged to Have Made \$37,000 on Transfer of City Property.

[Associated Press Cable]
DETROIT, Mich., July 26.—Warrants have been issued for eleven councilmen on charges of bribery a sensational that the whole city has been set in a turmoil and the entire country aroused by the news early today. The Councilmen are charged with accepting a total of \$37,000 in bribe money for the transfer of city property to a big railroad. President Glinnan and Secretary Schleicher, the latter the secretary of the League of American Municipalities, have been arrested, with marked currency in their possession. The dictagraph has been used in securing damaging evidence.

Would Clear Havemeyer

[Associated Press Cable]
SAN FRANCISCO, Cal., July 26.—The testimony to show that Henry Havemeyer was ignorant of much of the stock operations of the American Sugar Refining Company was introduced today during the progress of the Sugar Trust case.

Secretary Hannam of the Western Sugar Refining Company declared that Havemeyer was ignorant of the \$200,000 a year deal, by which the California-Hawaiian Sugar Refinery was to close its doors, until after the deal was consummated and the arrangements began to be effective.

He insisted also that he took no orders from Havemeyer, and that he was never in the employ of Havemeyer after 1895.

Publisher Fined, Sent to Jail

[Special Cable to Star-Bulletin]
DENVER, Colo., July 26.—Frederick G. Bonfils, owner and publisher of the Denver Post, was today sentenced to a term of sixty days in jail and to pay a fine of \$3,000 for contempt of court growing out of libel suits brought by former Mayor Robert W. Speer and William G. Evans, the president of the Rapid Transit Company.

The libel suits were brought as a result of charges made by Bonfils in his paper against Speer, the Democratic boss of Denver, and Evans, the head of the Republican machine.

Thaw Judged Still Insane

[Associated Press Cable]
WHITE PLAINS, N. Y., July 26.—Harry Kendall Thaw, slayer of Stanford White, was today judged insane and remanded to Mattawoman Asylum, thus ending his spectacular fight for freedom. It is estimated that in the present attempt to free him from custody more than \$100,000 has been spent. Evelyn Nesbit Thaw, his wife, has been testifying against him in the present trial, claiming he would kill her if he were freed.

FIGHTING WOMEN MOB POLICE AT WHITMAN-CROCKER WEDDING

SAN FRANCISCO, July 17.—Women mobbing the police at the church, a nuptial breakfast served at tables surrounding a fountain in a rose-tinted pavilion of Durbar-like magnificence, and the unusual precaution taken by the stalwart bridegroom in gripping a large revolver as he was escorting his bride to their private car on the honeymoon train, were outstanding features yesterday of the wedding of Miss Jennie Crocker, wealthiest heiress in California, and Malcolm D. Whitman, New York attorney, business man and clubman.

The wedding took place at high noon at St. Matthew's Church, San Mateo, Bishop William Ford Nichols officiating at the solemn Episcopal ring service.

Seen by Only 300.
Framed in a setting that made it one of the most distinctive functions of its kind held on the Pacific Coast the wedding was intended to be witnessed by less than three hundred invited guests selected from among their friends in California, Newport and New York.

The bride, who had made most of the arrangements for the wedding had counted on but little difficulty having the wishes of herself and Whitman respected in the matter of who should be present at their marriage.

With this idea in view only a small detail of police of San Mateo and an auxiliary force of detectives in plain clothes from San Francisco were ordered about the little Gothic church, and they were unable to cope with the crush of curious women who gathered from the surrounding countryside bent on catching a glimpse of the bride.

Lines Are Trampled Down.
Lines had been strung about the church, but the nuptial party had no sooner begun to arrive in motor cars than they were trampled down.

A crowd numbering five hundred, and made up principally of women and young girls, was spread over the lawns surrounding the church as soon as the first car of the wedding party appeared.

Its appearance was the signal for a surging struggle for the door of the church, the women fighting their way past the police and detectives who tried to hold them back.

When the limousine of the bride finally appeared it was swarmed upon. Using their nails, parasols and elbows, the excited women literally clawed their way to the door of the limousine and snatched at the orange blossoms and matched at the orange blossoms of the bride for souvenirs.

Makes Way Into Church.
The bride is a diminutive woman, and by bending low and shielding herself under the arms of men of the wedding party standing near the door she managed to make the interior of the church with no greater mishap than a disarranged bridal veil.

The scene was repeated when she emerged from the church following the ceremony, but the members of the nuptial party remembered the tumult that accompanied her entry and afforded her better protection. Some two scores more of women, however, exhibited as trophies of the crush handfuls of hydrangea and tiger lilies that they had plucked from the flower-decked limousine before it sped from the church grounds.

CAMPS ON MAUI IMPROVING, SAY HEALTH OFFICERS

Health conditions on the island of Maui are good, says Dr. Pratt, president of the Board of Health, who returned this morning with Dr. George W. McCoy after a week's tour of inspection through the district.

There are a few cases of typhoid at the Kaunapali camp of the Maui Agricultural Company, and a few other camps are not in the best condition, but a marked improvement generally was found throughout the island. Dr. Pratt praises the work of Chief Sanitary Inspector Trevenen, but says that the inspector has been held in check to some extent by the lack of transportation facilities and expense allowance for bridging these. This condition he says will be remedied immediately.
